Features

- High precision infrared sensor inside
- Reliable performance
- Suitable for different environment temperatures
- Auto-save for the last detected result
- Big LCD display with highlight backlight
- Clear and soft displaying
- Automatically turning off mode to save power mode

Specification

Measurement range	25°C ~ 100°C
Measurement time	1 second
Save value	32 datas (recycle)
Storage environment	-10°C ~ 50°C RH≤85%
Measurement precision	±0.2°C
Power supply	batteries (2AAA)
Operate Temperature	10°C~40°C RH≤85%
Weight	188g
Dimension	150mmX90mmX42mm
